

The assigned expiration date is at the sole determination of The University of Akron

campus facilities and activities, for their protection, until the outbreak is declared to be over. The Office of Student Health Services will review all requests, although approval is not guaranteed. After your request has been reviewed and processed, you will be notified, in writing, if an exemption has been granted. If the approved exemption contains an expiration date, you will be expected to complete a new request at that time.

Should the condition continue, or a new vaccination contraindication occur, or the current exemption expire, a new request with updated documentation is required. Decisions are final and not subject to appeal. Individuals are permitted to reapply if new documentation and information should become available.
